PROFILE

I am a highly skilled and certified Full-Stack Web Developer with over 4 years of extensive experience in building robust, scalable applications. Proficient in both frontend (**Angular**), (**React**) and backend (**Node.js**, **.NET** and **Express**) technologies, with a strong emphasis on creating seamless user experiences and reliable **APIs**.

Certified in **QA/QE** with a deep understanding of testing methodologies, including **Jest**, **Cypress**, **Jasmine**, **Moq** and **xUnit**.

Experienced in deployment using Docker and Azure, ensuring smooth delivery and scaling of applications.

TECHNICAL EXPERTISE

4 YEARS - EXPERIENCE

- **Frontend:** Angular, React, HTML, CSS, JavaScript, TypeScript
- **Backend:** Node.js, .NET, Express
- **Databases:** SQL Server, Prisma ORM, MySQL, PostgreSQL, Entity Framework Core, Mongo
- **Testing:** Jest, Cypress, Jasmine
- **Deployment & DevOps:** Docker, Azure, Heroku
- **Version Control:** Git, GitHub, GitLab

WORK EXPERIENCE

Teach2Give | Physical | May 2024

May - Sep

Full-Stack Developer | Attachment

- Developed and maintained scalable web applications using Angular and Node.js, ensuring high performance and responsiveness across devices.
- Designed and implemented RESTful APIs with Node.js and .NET, enhancing the functionality of internal tools and customer-facing applications.
- Led the creation of automated tests using Jest, Cypress, and Jasmine, reducing manual testing time by a great percentage and improving software reliability.
- Collaborated with DevOps teams to deploy applications using Docker containers, streamlining the deployment process.
- Utilized Azure for cloud hosting and deployment, optimizing the infrastructure for better scalability and availability.
